

Crane Certification Service inc.

106 South Main Street

Dickson, TN 37055

Unit Identification: C35

Inspection Number HC005- 31266

CERTIFICATION OF UNIT TEST AND/OR EXAMINATION OF CRANE DERRICK OR OTHER LIFTING DEVICE

Owner: Waggoner Equipment

Description: Hydraulic Crane

Manufacturer: Grove

Model: RT635C

Serial: 84235

Remarks: None

Inspection Date 7/16/2008

Requirements: 1926.550

I certify that on the date listed above the described device was examined by the undersigned or his authorized representative in accordance the inspection criterion of the indicated OSHA and/or ANSI requirements and that any deficiencies considered to constitute an unsatisfactory condition have been corrected. It is understood that this inspection does not preclude the necessity to perform frequent and periodic inspections in conjunction with a regular maintenance program in accordance with manufacturers specifications and/or federal, State and local government guidelines, as applicable. This does not constitute a warranty or guaranty of the performance of the above described equipment and does not release the owner and/or equipment operator from their responsibility to inspect this equipment prior to each use. Crane Certification Service Inc. does not assume responsibility for components not listed in the annual inspection requirements in the above mentioned ANSI/OSHA standards.
